

# More Issues

## 1 *More Dishes*

Satellite dishes have been removed from roof lines. The second phase will start soon with dish removal from common areas, including fascia, soffit, siding, and stairwells. Owners have been notified. The only location for dish placement is on the unit/condo's patio. If your dish is mounted to the fascia or trim of the building, it must be removed. Unit owners are fined for removal and disposal of satellite dishes.

## 2 *More Parking*

Towing to start for vehicles that are improperly parked. For those who may not know; each unit is entitled to one space in common area parking, and each unit has a garage that counts as second space. Do not park more than one automobile in common area parking.

## 3 *More Landscaping*

Landscape maintenance is a priority at the Villas. If you have questions or comments please contact our property manager, Jason, at 970-355-4059
